SAVE MONEY NOW WITH VIS-CHECK

Our VIS-Check inspection checks brake performance, front and rear axle steering linkage and suspension components and prints out detailed brake performance graphs and reports for all wheel positions. Our service technician will present you with a complete vehicle status report and recommendations.

- **Improved Uptime:** Ensure that repairs are made correctly the first time.
- **Lower Risk:** Provided documented records of component performance & repairs, and improved vehicle operating safety.
- **Purchase Peace-of-Mind:** Pre-purchase inspection of used equipment.
- **Lower Operating Costs:** Pre-warranty expiration inspection, elimination of mechanical faults that cause high fuel consumption, extended brake lining & drum life and potentially lower insurance premiums.
- **Peace of Mind:** US DOT Approved, DOT Inspection preparation.
- **Driver Satisfaction:** Dynamic diagnosis of squeaks, rattles & vibrations.
